

Hamilton County Sheriff's Office
Enforcement Activity by Major Category

(January 1 – December 31, 2020)

Annual Report

Jim Hammond
Hamilton County Sheriff

Prepared by: Analyst Elsmore & Captain Wilson
In collaboration with: Captain Chuck Gaston, Investigative Services

Introduction

This report presents statistics compiled from Hamilton County Sheriff's Office record management system along with other law enforcement databases. In general, this activity report is prepared in order to track efforts to combat criminal activity and the effectiveness of these efforts.

Statistical Considerations

Data used in the report represents current information housed within law enforcement databases. Due to the fact database entry is ongoing; some statistical information will change over time. For example, a fire investigation will remain a miscellaneous report until the investigation determines otherwise.

For this report, crime data and law enforcement efforts draw on data from the year of 2020, January through December. This data will be compared to previous annual data to track trends and changes. Comparisons will be made to the year 2019 for this report.

Arrest statistics are drawn from the initial booking data collected at the time of arrest prior to arraignment.

Classifications as to a shooting incident are based upon a bullet striking the victim. This category therefore addresses a broad classification of crimes to include robbery, murder, aggravated assault, etc. For reporting purposes, it does not include suicides, accidental, or officer involved shootings.

Some classifications do not have a specific victim; therefore, in cases such as these (i.e. drug possession) the victim is listed as society.

Offense definitions are derived from the TIBRS Data Manual 14th edition.

Crimes against Persons

HCSO investigates a range of personal crimes. In general, HCSO patrol makes a preliminary assessment and based upon this assessment, determines whether additional investigative resources are necessary. For example, HCSO patrol will notify HCSO Criminal Investigations when an investigation involves homicide, suspicious death, or rape.

HCSO draws upon all available internal resources in the investigation of personal crimes. HCSO also works jointly on a daily basis with local, state and federal law enforcement investigating personal crimes. Additionally, HCSO works closely with the District Attorney's Office, Hamilton County Medical Examiner's Office, Child Protective Team (CPIT), Child Advocacy Center (CAC), Hamilton County Coalition, Hamilton County Partnership, and Hamilton County Health Department.

HCSO CID Personal Crimes has one detective assigned to the FBI Task Force and one to the TBI Task Force.

Murder (09A, 09B)

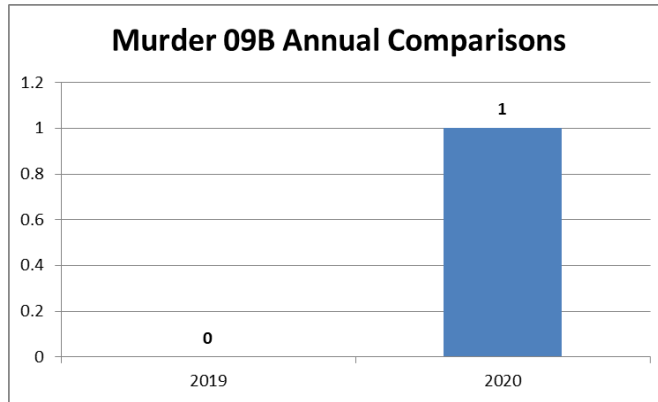

09A Definition: The willful (non-negligent) killing of one human being by another.

09B Definition: The killing of another person through negligence.

There were two 09A Murders in the years 2019 and 2020. This represents no change in the number of cases investigated. Of the two 09A murders that took place in 2020, one is still not cleared and the other has been cleared by arrest.

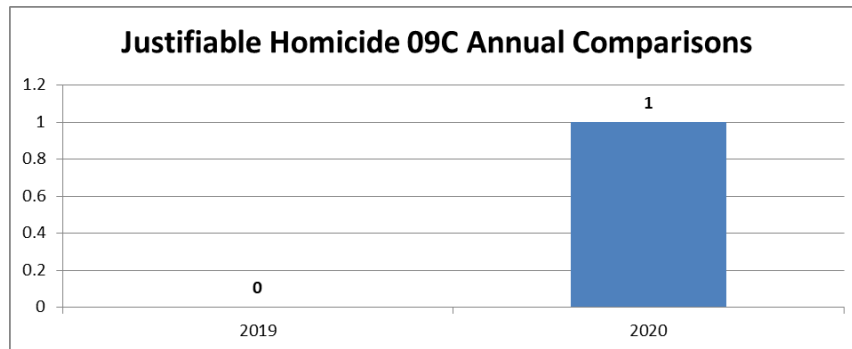

There was one 09B Murder investigated in 2019, and none in 2020. The one that was investigated in 2020 was cleared by arrest.

Justifiable Homicide (09C)

Definition: The killing of a perpetrator of a serious criminal offense by a peace officer in the line of duty; or the killing, during the commission of a serious criminal offense, of the perpetrator by a private individual.

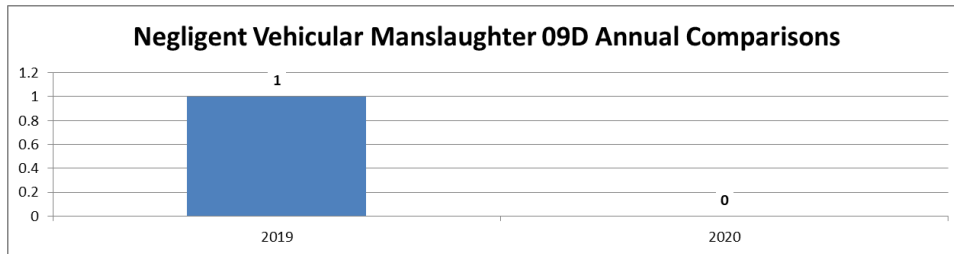

There were no justifiable homicides in the year 2019. There was 1 justifiable homicide that occurred in 2020. This change represents a 100% increase. Clearance rates are not available for this data because no crime was committed.

Negligent Vehicular Manslaughter (09D)

*Definition: The negligent killing of another person by the driver of a motor vehicle while under the influence of alcohol and/or drugs. **Not** included in this category are deaths of persons due to their own negligence; accidental deaths resulting from non-alcohol or drug related negligence (i.e. distracted driving such as tuning a car radio, talking on a phone, texting, etc.); and other accidental traffic fatalities.*

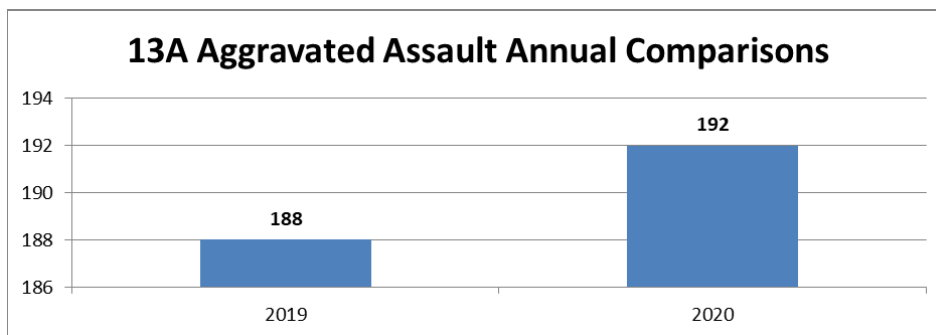

There was one 09D vehicular manslaughter case occurred in 2019 and it was cleared by arrest, whereas in 2020 no 09D crimes were investigated. This represents a -100% decrease, but it is important to note that with a data set this small this number is not an accurate reflection of crime rates for 09D offenses.

Assault – 13A, 13B, 13C, 13D

Aggravated Assault (13A)

Definition: An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

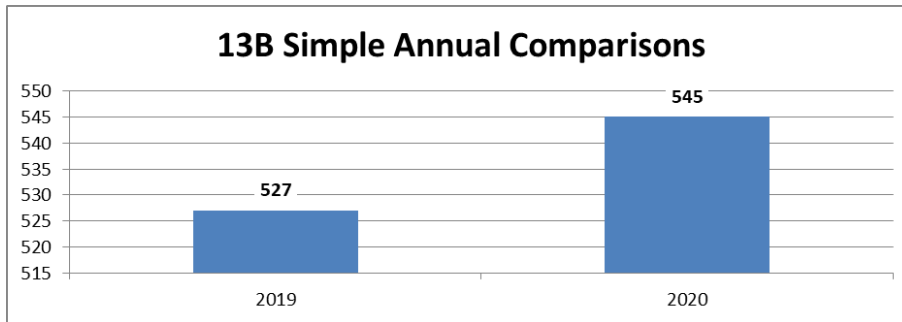

When compared to data from the previous year, the numbers of aggravated assault cases investigated have increased. From 2019 to 2020, aggravated assaults increased from 188 to 192, which represent a 2.13% increase.

In 2020 were a total of 192 Aggravated Assault cases investigated. Of these, 119 (63%) were cleared by arrest, 65 (34.4%) were not cleared, and 5 (2.6%) were cleared exceptionally.

Simple Assault (13B)

Definition: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

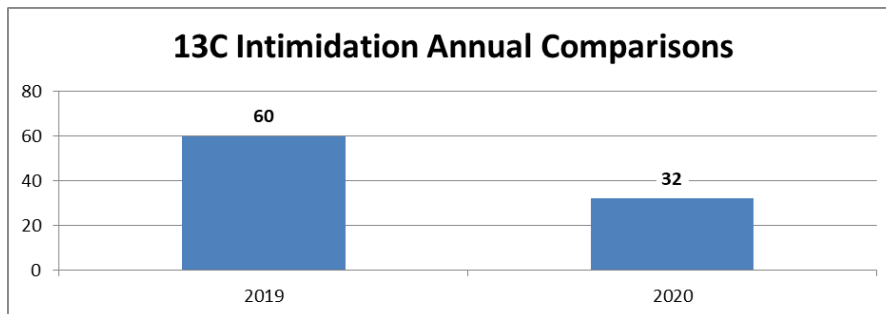

When compared to data from previous year, the numbers of Simple Assault cases investigated have increased. From 2019 to 2020, simple assaults have increased from 527 to 545, which represent a 3.42% increase.

In 2020 there were a total of 545 simple assault cases investigated. Of these, 224 (43.1%) were cleared by arrest, 226 (43.5%) were not cleared, and 70 (13.5%) were cleared exceptionally.

Intimidation (13C)

Definition: To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

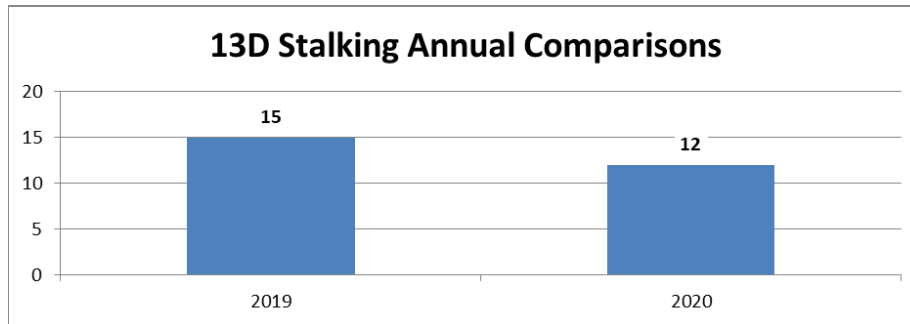

When compared to data from previous year, the numbers of Intimidation cases investigated have decreased. From 2019 to 2020, intimidation cases have decreased from 60 to 32, which is a -46.67% decrease.

In 2020 there were 32 intimidation cases investigated. Of these, 9 (29%) were cleared by arrest, 19 (61.3%) were not cleared, and 3 (9.7%) were cleared exceptionally.

Stalking (13D)

Definition: To intentionally and repeatedly follow or harass another person in such a manner as would cause that person to be in a reasonable fear of being assaulted, suffering bodily injury or death.

When compared to data from the previous year, the numbers of Stalking cases investigated have decreased. From 2019 to 2020 stalking cases decreased from 15 to 12, which represent a -20% decrease.

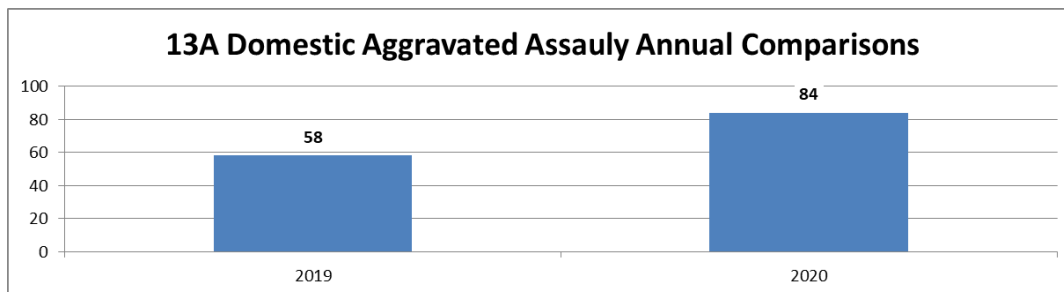

In 2020 there were 12 Stalking cases investigated. Of these, 4 (33.3%) were cleared by arrest and 8 (66.7%) were not cleared.

Domestic Assault (13A-D)

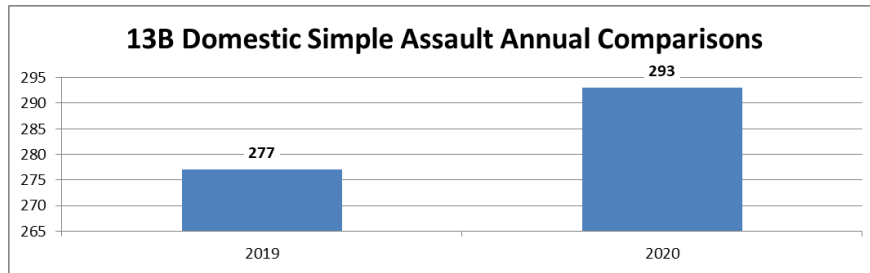

All the above assault data includes Domestic Assaults in the totals, but in this section Domestic Assault data will be analyzed separately. There is no exact TIBRS guideline as to the definition of Domestic Assault, but it is stated in the manual that multiple assault offenses are possible (primarily 13A, 13B, 13C, and 13D).

HCSO patrol conducts most domestic violence investigations. During this year, domestic violence investigations increased across the years being compared.

The vast majority of Domestic Violence charges are 13B Simple Assault. There are significantly less Domestic Assaults under 13A Aggravated Assault, and none for 13C or 13D for all years being analyzed.

13A – The numbers of domestic assault 13A investigations have increased. From 2019 to 2020 they increased from 58 to 84, which represent a 44.83% increase. Of the 84 cases investigated in 2020, 61 (72.6%) were cleared by arrest and 23 (27.4%) were not cleared.

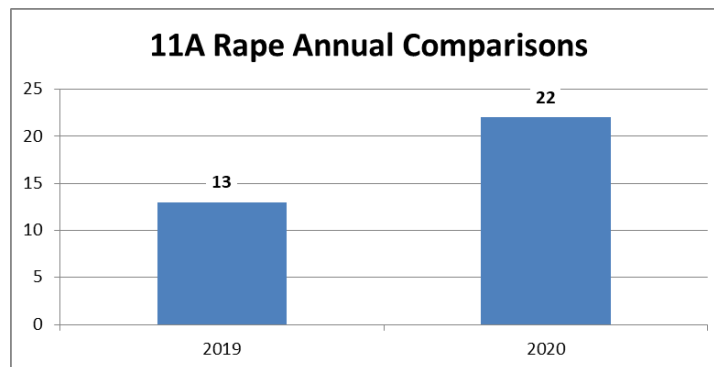

13B – The numbers of domestic assault 13B cases investigated have increased. In 2020 there were 293 domestic assaults investigated that were categorized by this offense, and 277 in 2019. This represents a 5.77% increase. Of the 293 cases investigated in 2020, 157 (53.6%) were cleared by arrest, 125 (42.7%) were not cleared, and 11 (3.8%) were cleared exceptionally.

13C – In 2020 there were no domestic assaults investigated that were categorized by this offense. The same is true for 2019. This section has been included to show the lack of charges under this offense code, and to use in the future for comparison if the need arises.

13D – In 2020 there were no domestic assaults investigated that were categorized by this offense. The same is true for 2019. This section has been included to show the lack of charges under this offense code, and to use in the future for comparison if the need arises.

Rape (11A)

Definition: The carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

When compared to data from the previous year, the numbers of Rape 11A cases investigated have increased. There was an increase from 13 to 22 from 2019 to 2020, which is a 69.23% increase.

In 2020 there were 22 Rape cases investigated. Of these, 4 (19%) were cleared by arrest, 15 (71.4%) were not cleared, and 2 (9.5%) were cleared exceptionally. Rape cases tend to take a greater amount of time to solve for a multitude of reasons, lengthy wait times for lab results being one example. These cases will be updated as the investigation continues.

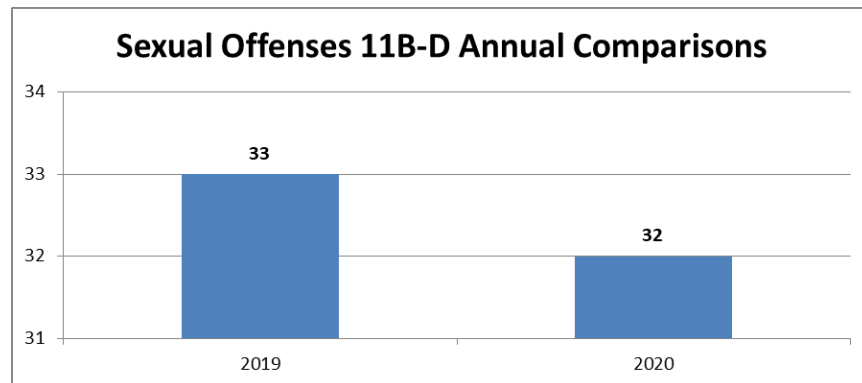

Sexual Offenses (11B-D)

Definition 11B Sodomy: Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

Definition 11C Sexual Assault with an Object: To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

Definition 11D Fondling: The touching of the private body parts of another person for the purpose of sexual gratification or any other reason, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

For the purposes of this report these offenses have been combined.

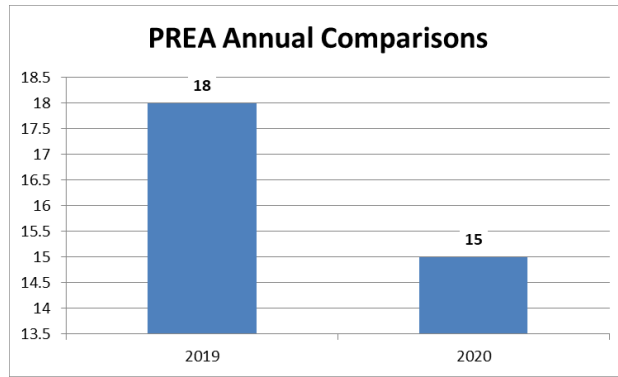

When compared to data from the previous year, the number of sexual offense cases investigated has decreased. From 2019 to 2020 there was a decrease from 33 to 32, which represents a -3.03% decrease.

In 2020 there were 32 sexual offenses investigated. 26 (83.9%) were not cleared, 3 (9.7%) were cleared by arrest, and 2 (6.5%) were cleared exceptionally. Sexual offenses tend to take a greater amount of time to solve for a multitude of reasons, lengthy wait times for lab results being one example. These cases will be updated as the investigation continues.

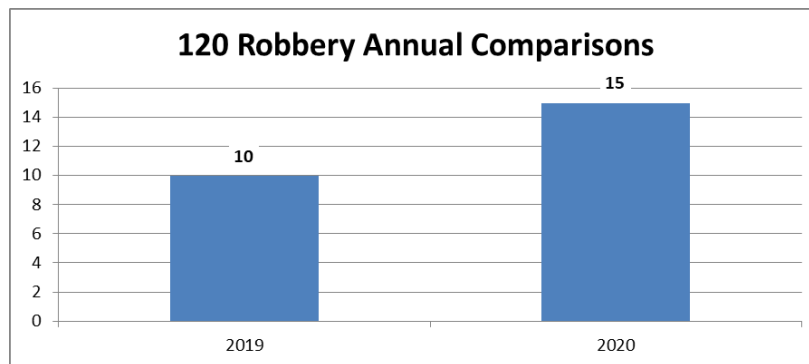

PREA (Prison Rape Elimination Act)

In 2020 there were a total of 15 cases investigated that fell under the Prison Rape Elimination Act. In 2019 there were a total of 18, which is a -16.66% decrease. These numbers represent data from both the Hamilton County Jail and the Silverdale Detention Facility. Prior to January 2020 this type of data was not collected, but will be retained and analyzed going forward as more data is accrued.

Robbery 120

Definition: The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

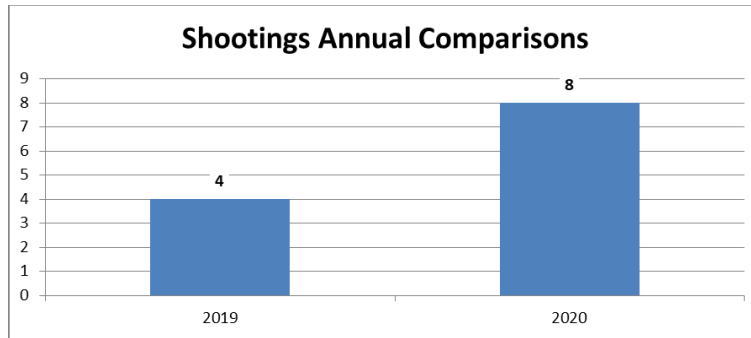

When compared to data from the previous year, Robbery numbers have increased. From 2019 to 2020 the number of robberies increased from 10 to 15, which is a 50% increase.

In 2020, 15 robberies occurred. Of these, 5 (33.3%) were cleared by arrest and 10 (66.7%) were not cleared.

Shooting Incidents

There is no definition provided in the TIBRS manual specifically for shooting incidents, but for the purposes of this report classifications as to a shooting incident are based upon a bullet striking the victim. This category therefore addresses a broad classification of crimes to include robbery, murder, aggravated assault, etc. For reporting purposes, it does not include suicides, accidental, or officer involved shootings.

When compared to data from the previous year, the number of shooting incidents increased. 2019 had 4 shooting incidents and 2020 had 8, which represents a 100% increase.

Below is a table that summarizes the quantities and percentage change calculations from all of the above offenses.

Conclusions

This report breaks down crimes by TIBRS Offense Code/Classification; however, some of these crimes are not mutually exclusive. The analysis of criminal trends helps develop a broader understanding of criminal behavior and the effects of law enforcement strategies. With this knowledge, we are more proactive instead of reactive; thereby, reducing the overall effect of the criminal trend.

The Hamilton County Sheriff’s Office is keenly aware of the benefit of data driven policing and makes use of well-thought-out innovative methods. Innovative strategies such as Data-Driven Approaches to Crime and Traffic Safety (DDACTS), along with Intelligence-Led Policing, provide the framework to turn the knowledge acquired through data into a focused approach in addressing criminal behavior.
